MOUSETOCLICK

REMOTE VIDEO MONITORING SOLUTIONS

Innovation at Your Clicks

A SMARTER APPROACH TO CCTV MONITORING

SMARTER SECURITY. LOWER OPERATIONAL COSTS.

Are you looking for a reliable and cost-effective way to manage your CCTV monitoring operations?

MouseToClick provides outsourced remote video monitoring for businesses using their existing, compatible CCTV systems. Our service helps organizations maintain visibility across their premises while reducing the workload and overhead of managing an in-house monitoring team.

What We Do

- Live remote surveillance of your existing CCTV cameras
- Flexible monitoring schedules, including 24/7 arrangements where agreed
- Identification of suspicious activity and unusual movements
- Incident documentation with timestamps and camera references
- Alerts and escalation to your designated contacts
- Daily monitoring logs and structured reporting

Why MouseToClick

- A cost-effective alternative to building an in-house monitoring operation
- Flexible coverage designed around your locations and operating hours
- Consistent monitoring procedures and clear incident communication
- Scalable arrangements as your business grows

POTENTIAL SAVINGS OF APPROXIMATELY 30–40%

Compared with equivalent in-house CCTV monitoring operations. Actual savings depend on camera count, locations, coverage hours, current staffing costs and service requirements.

Industries We Support

Retail • Warehousing • Manufacturing • Corporate Offices • Education • Healthcare • Construction • Logistics • Parking Facilities

Let’s Discuss Your Requirements

We would welcome the opportunity to understand your monitoring needs and recommend a suitable service plan. A customized scope and commercial quotation can be prepared based on your camera count, locations and required coverage.
